DESCRIPTION

Hyaluronic Acid is responsible for keeping the skin smooth and plump, but naturally over time, the levels found within the skin decrease with age. As a result, the skin begins to dry out and lose its baby-skin smoothness. HA Collagen Booster is specially formulated, featuring our proprietary Transepidermal delivery system, to provide intense hydration, boost the moisture content and defend against moisture loss to promote softer, smoother and more radiant skin. The unique grape extract found within the HA Collagen Booster acts as a powerful antioxidant, effectively protecting both the skin and epidermal skin cells from harmful UV rays and other environmental stressors. The synergistic effect of four types of Hyaluronic Acid, employed in this product, provide immediate and lasting hydration levels within the skin, resulting in a more radiant appearance.
